Prosthetic & Orthotic Services

Prosthetic & Orthotic Services designs, fabricates, fits, maintains and repairs a full spectrum of prostheses, orthoses and other devices to meet the rehabilitation needs of individual patients. Our experienced practitioner works closely with orthopaedic and other medical specialists, physiotherapists and nurses to help patients restore normal daily activities and enhance quality of life.

What is Prosthetics and Orthotics?

Prosthetics: Application of SUBSTITUTES for missing body parts to improve body limb function and appearance.

Orthotics: Application of BRACES to maintain or correct joint alignment, protect joint integrity, relieve pain and improve function.

We Help Patients with ...

Orthopaedic disorders: Amputations, fractures, spinal deformities, sports injuries, osteoarthritis

Paediatric disorders: Flatfoot, idiopathic scoliosis, cerebral palsy, clubfoot, poliomyelitis

Foot and ankle disorders: Diabetic foot, heel pain syndrome, plantar fasciitis, metatarsalgia, hallux valgus

Neurological disorders: Stroke, multiple sclerosis, spinal cord injuries, neuromuscular diseases

Other conditions: Rheumatoid arthritis and burns

Professional Services

Since no two persons are alike, each prosthesis or orthosis is custom-designed and made to fit especially the physique and activity level of an individual patient. We provide:

Prostheses: Functional lower and upper limb prosthesis (energy response foot and electronic control knee unit)

Orthoses: Foot orthosis (insole/ arch support), fracture bracing, functional knee brace, scoliosis brace, cervical and spinal orthosis, static or dynamic upper limb orthosis

Other devices: Postural and seating devices, Rehabilitation adaptation aids

Maintenance and repair services for prostheses and orthoses are also provided.
